Any status

[Issued patents](#)[Applications](#)**[\[APPLICATION\] Media foundation topology](#)**

US Pat. 10606898 - Filed Jun 27, 2003 - Microsoft Corporation

Topology loader 250 is a control layer component responsible for describing the data flow between the core layer **components**. A control layer **components** can ...

[\[APPLICATION\] Media foundation topology application programming interface](#)

US Pat. 10606838 - Filed Oct 24, 2003 - Microsoft Corporation

Media session 240 guides when events in a **topology** occur, and the **topology loader 250** ensures that events prescribed in a **topology** occur. **Components** in a ...

[Resolving partial media topologies](#)

US Pat. 7609863 - Filed Mar 8, 2004 - Microsoft Corporation

The **topology loader 232** implements 15 logic instructions to determine which transforms 218 are necessary or desirable to provide the data from the **media** ...

[Managing topology changes in media applications](#)

US Pat. 7677940 - Filed Mar 8, 2004 - Microsoft Corporation

The **topology loader 232** implements logic instructions to determine which transforms 218 are necessary or desirable to provide the data from the **media** ...

[\[APPLICATION\] Media foundation media processor](#)

US Pat. 10603328 - Filed Jun 26, 2003 - Microsoft Corporation

Thus, **media engine 260** uses the other **Media Foundation components** to accomplish this ... The **topology loader** will indicate the properties of the output, ...

[\[APPLICATION\] Media timeline sorting](#)

US Pat. 11110285 - Filed Apr 20, 2005 - Microsoft Corporation

[0062] The **media processor 212** manages data flow in a **topology 230**. The **topology 230** defines how data flows through various **components** for a given ...

[\[APPLICATION\] Media timeline processing infrastructure](#)

US Pat. 11109291 - Filed Apr 19, 2005 - Microsoft Corporation

The **topology 230** defines how data flows through various **components** for a given ... Therefore, a component called the **topology loader 232** may take ...

[\[APPLICATION\] Dynamic redirection of streaming media between computing devices](#)

US Pat. 10828402 - Filed Apr 24, 2004 -

[0041] The **media processor 212** manages data flow in a **topology 230**. The **topology 230** defines how data flows through various **components** for a given ...

[\[APPLICATION\] DV metadata extraction](#)

US Pat. 10676878 - Filed Oct 1, 2003

For example, the **topology loader 224** checks the multimedia data type of an incoming **media** file and determines which processing **components** (ie, 230, 232, ...

[\[APPLICATION\] Media foundation media sink](#)

US Pat. 10603369 - Filed Jun 27, 2006 - Microsoft Corporation

 1 2 3 4 5 [Next](#)

Note that these **components** can either be the same as or different from operating

... **loader 250** generates a **topology** to transform the **data** from one **media** ...

Stay up to date on these results using the [patents RSS feed on topology loader and media data and components](#).

topology loader and media data and compo
